Education Abroad

PROGRAM INFO

Berlin and
Munich,
Germany

1 Week

Spring
Break 2024

Come spend your spring break in Germany – known for its engineering excellence!

- Find out how Germany is solving the world's most pressing engineering challenges to sustainability.
- Increase your attractiveness as an engineering job candidate!
- Develop your communication competency, intercultural fluency skills, and ability to consider different viewpoints.
- Come study abroad in Germany to gain a diverse perspective on sustainability practices and green technologies – see how others think about engineering initiatives on biodiversity, climate change, energy, urban development, and resource efficiency.

COURSES OFFERED

- **EGN 4930** - Special Topics in Engineering
